## Information Disclosure Statement

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

Listed on accompanying Form PTO-1449 are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97 and 1.98. Copies of these documents were previously cited by or submitted to the Office in U.S. Application No. 08/817,423, filed August 4, 1997, which is relied upon for an earlier filing date under 35 U.S.C. § 120. Thus, submission of copies of these documents is not required. 37 C.F.R. § 1.98(d).

Documents AL1 and AS4 are in a foreign language. An English translation of these documents is not presently available. Therefore, in compliance with 37 C.F.R. § 1.98(a)(3), for document AL1, the International Search Report, in which WO 94/17197 is classified as a "Y" document, and an English abstract of document AS4 were submitted to the Office in U.S. Application No. 08/817,423.

The Examiner's attention is directed to co-pending U.S. Application No. 08/294,819, filed August 26, 1994, which is directed to related technical subject matter. The identification of this U.S. Application is not to be construed as a waiver of secrecy as to that application now or upon issuance of the present application as a patent. The Examiner is respectfully requested to consider the cited application and the art cited therein during examination.

Where the publication date of a listed document does not provide a month of publication, the year of publication of the listed document is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the month of publication is not in issue. Applicants have listed publication dates on the attached PTO-1449 based on information presently available to the

undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that a search has been made, or that information more material to the examination of the present patent application does not exist. The Examiner is specifically requested not to rely solely on the material submitted herewith. It is further understood that the Examiner will consider information that was cited or submitted to the U.S. Patent and Trademark Office in a prior application relied on under 35 U.S.C. § 120. 1138 OG 37, 38 (May 19, 1992).

This Information Disclosure Statement is being filed before the mailing date of a first Office Action on the merits. Thus, no statement or fee is required.

It is respectfully requested that the Examiner initial and return a copy of the enclosed Form PTO-1449, and indicate in the official file wrapper of this patent application that the documents have been considered.

The U.S. Patent and Trademark Office is hereby authorized to charge any fee deficiency, or credit any overpayment, to our Deposit Account No. 19-0036.

Respectfully submitted,
